

TRANSPORTATION

United is known for its large equipment fleet and employs skilled and experienced operators to serve your transportation and disposal needs. All transportation equipment is inspected by the California Highway Patrol and is licensed to haul hazardous materials and hazardous waste.

United Pumping Service will handle all paperwork required for the shipment of your non-hazardous or hazardous waste. All manifesting, profiling, Land Disposal Restriction Forms, Bill of Ladings, and all attachments required for transportation will be provided by our company for proper disposal of your liquid and solid waste streams.

TRANSPORTATION EQUIPMENT OWNED

- Tankers (2000 to 5500 gal. capacity)
 - Triple Compartment
 - Kesite (Rubber) Lined
 - Stainless Steel
 - Mild Steel
 - Fiberglass
- Vactor & Vactor Jetter Trucks
- Roll-Off Trucks & Bins
- End Dump Trailers
- Flat Bed & Drop Deck Trailers
- Dry Vans
- Stakebed Trucks

EXCEPTIONS TO MATERIALS HANDLED

- Radioactive Materials
- Explosives
- Compressed Gases

We also transport electronic waste for E – Recycling!

SOIL & GROUNDWATER REMEDIATION

United's experienced personnel have successfully constructed systems for the remediation of soil and or groundwater using designs and methods such as the following:

- Excavation
- Vacuum Extraction
- Encapsulation
- Soil Stabilization
- In-Situ Remediation
- Bio-Augmentation
- Onsite Land Farming
- Groundwater Extraction
- Slurry Cut-Off Walls

We recognize that many other services are available such as deep soil mixing, thermal and chemical treatment, and soil washing with variations to all of the above noted remediation methods. Our goal is to provide the most economical solution to solution to expedite the needs of our clients.

INDUSTRIAL VACUUM TRUCK SERVICES

With an extensive fleet of equipment United Pumping Service is capable of providing a wide range of industrial vacuum truck services that include, yet are not limited to the following:

- Load Transfers
- Grease Trap Cleaning
- Clarifier & Sump Cleaning
- Sand & Gravel Removal
- Sludge Removal
- Drilling Mud Removal
- Sewer Line Cleaning & Sewer Bypass
- Above & Underground Storage Tank Cleaning
- Waste Water Treatment Digester Cleaning
- Railroad Track Cleaning
- ... and more!

HAZARDOUS WASTE TYPES HANDLED

- Acids
- Alkalines
- Flammables
- Lab Packs
- Filter Cake
- Drummed Waste
- Coolant
- Poisons
- Solvents
- PCBs
- Asbestos
- Waste Oils
- Waste Coolant

EXCEPTIONS TO MATERIALS HANDLED

- Radioactive Materials
- Explosives
- Compressed Gases

CONFINED SPACE ENTRY & RESCUE

CONFINED SPACE ENTRY--TITLE 8 CCR 5156-5158

United's experienced and professional service crew is 40-hour HAZWOPER trained and certified in confined space entry and rescue procedures in accordance with OSHA Title 29 CFR 1910.120 and Title 8 CCR 5156-5158. In addition, all confined space rescue specialists have received annual first aid and CPR training. Prior to arriving onsite, a United Safety Officer will review the work plan and prepare written operating and rescue procedures to address the protocol that will be followed for the health and safety of all members working at the job site. At a minimum these procedures will include an approved site specific Health and Safety Plan and an approved Confined Space Entry Permit.

CONFINED SPACE RESCUE--TITLE 8 CCR 5157(K)

United also provides confined space rescue stand-by services for other entities. Due to the specific OSHA regulations for confined space rescue there is specialized equipment and training necessary to perform a safe and successful rescue. United ensures that:

- All personnel are trained to properly use the personal protective equipment and rescue equipment needed for confined space rescue.
- The rescue personnel have appropriate and approved respiratory protective equipment including an independent source of breathing air available for immediate use and fall protection equipment.
- Rescue personnel attend a refresher course to practice making confined space rescues at least once every 12 months.
- All personnel are made aware of the hazards they may face during a rescue effort.

EQUIPMENT

United owns and operates a wide variety of equipment required for sewer and storm drain maintenance industrial vacuum services, sludge dewatering, traffic control, excavation and emergency response including yet not limited to the following:

Heavy Industrial Vactor Jetters

2000 gal or 16 cu yd - wet & dry vacuum.
8" x 20' reach loading boom with 1000 lb. capacity.

Heavy Industrial Vactors

3000 gal - high dump wet & dry vacuum
(offloading ramps not required).
Vacuums at 2940 - 4721 cu ft/min. Hi-rail equipped
for operation on railroad tracks.

Residential Industrial Vactors

800 gal - wet & dry vacuum with a 700 psi pressure
washer onboard.

Vacuum Trucks

Stainless Steel & Fiberglass lined. 2500 gal, 3000
gal, 5000 gal, 5500 gal. Transport acids, caustics,
non - hazardous liquid.

Portable Jetters

Cold water jetting - 14 gal/min, 4000 psi.
Hot water jetting - 14 gal/min, 4000 psi.

Roll - Off & Dewatering Bins

10 yd, 15 yd, 20 yd, 40 yd bins. Dewatering bins are
fitted with specialized filter cloth & are
considered a TTU (Transportable Treatment Unit).

Roll-Off Trucks & End Dumps

Hydraulic cylinder & winch operated trucks.
Transport 10 yd, 15 yd, 20 yd, 40 yd bins.

Stakebed Trucks

General transportation & traffic control.
Liftgates. 12 - 14 ft long, 8 ft wide bed. 14 - 16
ft long, 8 ft wide cushion boxes.

Drop Deck Flatbed Trailers

48 ft long, 8.5 ft wide

Dry Vans

45 ft long, 8.5 ft wide

Emergency Command Center

Conference room with large dry erase boards
(seats 16). Mobile office equipped (printer, copier,
fax). Layover (sleeps 6).

Emergency Response Center

Fully equipped w/ PPE for Level B to Level D spill
response. Equipped for chemical neutralization,
chemical transferring & personnel decontamination.
Mobile office equipped (printer, copier, fax). Layover
equipped (sleeps 4)

PERMITS, LICENSES & STAFF TRAINING

PERMITS & LICENSES

United Pumping Service is a licensed general engineering contractor with the proper certifications for hazardous substance removal, remedial actions, and demolition. United currently holds and maintains over forty permits & licenses in addition to the following:

- United Pumping Service, Inc. (95-2893404)
- California, A - General Engineering Contractor's License including certifications for hazardous substances removal and remediation actions (HAZ), building moving & demolition (C21), construction zone traffic control (C31), sanitation systems (C42) and landscaping (C27) (No. 617639)
- California Department of Motor Vehicles Motor Carrier Permit (No. 0001024)
- California Highway Patrol Hazardous Material Transportation License (No. CA 001024)
- Nevada, A - General Engineering License
- Arizona, A - General Engineering License
- Department of Toxic Substance Control (DTSC) Hazardous Waste Transporter (No. 0063)
- U.S. E.P.A. Hazardous Waste Transporter (No. CAD072953771)
- U.S. D.O.T. Registration (No. 217582)
- U.S. D.O.T. Hazardous Materials Certificate of Registration (No. 061708 551 060QR)
- CA DHS Trauma Scene Waste Management Practitioner (No. 079)
- DFA Inedible Kitchen Grease Transportation Registration Certificate

STAFF TRAINING

Our highly experienced, professional service staff is trained and medically monitored in accordance with O.S.H.A. Title 29 CFR 1910.120 to conduct tasks involving the handling of or exposure to hazardous materials and includes:

- 30-Hour OSHA Training in Construction Safety
- 40-Hour HAZWOPER Training & 8-Hour Annual Refresher Courses
- Traffic Control Training Per Caltrans Standards
- Confined Space Entry Training
- Confined Space Rescue Training
- Railroad Safety & Security Awareness Training
- DOT HM126F, HM180 & HM181
- Blood Borne Pathogens Training
- Medical Surveillance Program
- O.M.V. & D.O.T. Drug & Driving Record Programs
- CPR & First Aid Training
- LiveScan (Req'd by Transportation Security Admin.)

RAILROAD SERVICES

United Pumping Service maintains and operates its own fleet of railroad track(hi-rail) maintenance equipment. United provides services for rail transportation companies including trans-loading and hi-rail services, derailments and intermodal container cleanups/transfers. Our professional and highly experienced Field Staff are **E-Rail Safe Certified** and trained to handle a wide variety of chemical commodities.

MATERIALS HANDLED

- Acids
- Caustic & Base Materials
- Petroleum Materials
- Pressurized Gases (ER Only)
- Virgin Materials
- Sand & Granular Materials

HI-RAIL SERVICES

- Ballast Removal
- Vacuum Excavation
- Derailment Response & Cleanup
- Emergency Spill Response
- Natural Disaster Response
- Pneumatic Excavation
- Track Cleaning & Maintenance

United is a 24-Hour emergency spill response service provider and is extremely familiar with the urgency and response time needed to clear railway tracks and safely transport and/or remediate hazardous materials that may pose a potential hazard to the environment and the public.
