

TRANSPORTATION

United is known for its large equipment fleet and employs skilled and experienced operators to serve your transportation and disposal needs. All transportation equipment is inspected by the California Highway Patrol and is licensed to haul hazardous materials and hazardous waste.

United Pumping Service will handle all paperwork required for the shipment of your non-hazardous or hazardous waste. All manifesting, profiling, Land Disposal Restriction Forms, Bill of Ladings, and all attachments required for transportation will be provided by our company for proper disposal of your liquid and solid waste streams.
